

**IN THE CLAIMS:**

Please cancel claim 2 without prejudice to or disclaimer of the subject matter recited therein.

Please amend claim 1 as follows:

**LISTING OF CURRENT CLAIMS**

Claim 1. (Currently Amended) A dual-screen notebook computer comprising:  
a notebook computer, said notebook computer having an LCD display module;

a pivot structure provided at one side of said notebook computer; and  
a supplementary display module fastened pivotally with said pivot structure and electrically connected to an internal control circuit of said notebook computer for output of current status information of said notebook computer; and

a digital video camera installed in said notebook computer; computer;  
a game boy control button module installed in said notebook computer for controlling operation of a game boy.

wherein the supplemental display module is movable between open and closed positions, when the supplemental display module is located in the closed position, the supplemental display module is located in a back surface of the LCD display module and has an exterior surface located in a same plane as the back surface of the LCD display module, and when the supplemental display module is located in the open position, the supplemental display module is pivoted outwardly from the back surface of the LCD display module.

Claims 2 and 3. (Cancelled)

Claim 4. (Previously Presented) The dual-screen notebook computer as claimed in claim 1, wherein a screen of the supplementary display module is visible when the notebook computer is closed.

Claim 5. (Previously Presented) The dual-screen notebook computer as claimed in claim 4, wherein a screen of the LCD display module is not visible when the notebook computer is closed.

Claim 6. (Previously Presented) The dual-screen notebook computer as claimed in claim 1, wherein screens of the LCD display module and supplementary display module are not visible when the notebook computer is closed.
